GOLDEN HOMES®

LOCATION

Situated less than four kilometres from Whangārei's city centre, Port Nikau is a growing waterfront community that brings together relaxed coastal living and everyday convenience. With easy access to State Highway 1 and Whangārei Airport just nine kilometres away, it's a well-connected location to build your new home.

Set within a 100-hectare development with around four kilometres of coastline, Port Nikau offers plenty of reasons to spend more time outdoors. Enjoy coastal walks and bike rides, stroll down to the marina, or make the most of the harbour's fishing and boating opportunities. It's a setting where the waterfront can become part of your everyday life.

Shops, schools and medical facilities are within easy reach, with the nearest supermarket and shopping centre less than three kilometres away. Whangārei's cafés and restaurants are also close by, while planned parks, play areas and a new town centre with shops and cafés will create more places to relax and connect as the community grows.

Become part of this emerging neighbourhood with a Golden Homes House & Land package that suits the way you want to live. Combining freehold sections with thoughtfully designed homes, our packages offer an appealing opportunity to enjoy a new home, a coastal lifestyle and the convenience of the city nearby.

ABOUT GOLDEN HOMES®

Build Your Future with Confidence

At Golden Homes®, we believe your home should be more than just a place to live – it should be a reflection of your lifestyle, your aspirations, and your future. Proudly New Zealand owned and operated, we've been building quality homes for Kiwi families for over 35 years, combining innovation, durability, and style in every build.

What sets us apart? Every Golden Home is built with our exclusive ZOG® steel framing system – a stronger, safer and more resilient alternative to traditional timber framing. Designed to withstand New Zealand's unique climate and seismic conditions, our homes are built to last, giving you peace of mind for generations to come.

Whether you're a first home buyer, growing family, savvy investor or ready to create your forever home, we offer a wide range of stylish plans and custom design options to suit your needs and budget. Our expert team supports you from concept to completion, making your building journey simple, stress-free, and exciting.

With Golden Homes®, you're not just building a home – you're building your future.

Golden Homes® – Trusted by Thousands of Kiwis... Its a Better Home You Own...

GOLD STANDARD BUILDING SYSTEM

Beautiful homes designed especially for New Zealand lifestyles and conditions, with top quality fittings, finishes and building materials. Throughout our years of experience, we have been able to perfect our craft down to the tiniest details, resulting in our very own Gold Standard Building System and you get to experience it! Our Gold Standard Building System is where every aspect of building your home comes together in one superior package and ensures that your Golden Home stands out above the rest.

START WITH A STRONG FOUNDATION

Your home is built upon a RibRaft concrete floor, a method where foundations sit directly on the ground. These types of foundations are often quicker to construct than traditional methods. They perform better in earthquakes and have been recommended for Christchurch rebuilds. For your warmth and comfort, they come with an insulation rating.

THERMALLY ISOLATED DOUBLE GLAZED WINDOWS

Thermal breaks on all your window joinery with Low E Xcel glass give you a warmer, drier home. They keep the condensation off your glass as well as your aluminium window frames, removing problems with mould or the winter chill.

NATURAL VENTILATION

Breathe easy - We install natural air integrated ventilators in all of our bathrooms and toilets to prevent damp, stale air and keep it fresh.

A WARMER BETTER INSULATED HOME

With R7.0 insulation in your ceiling and a total of R2.9 insulation in your walls (thanks to the R2.6 insulation and R0.3 Home-RAB thermal barrier sheet), your home will stay cool in the summer and be toasty warm in the winter - and use as little energy as possible.

FIRE RESISTANT

Featuring components such as ZOG steel framing, ZOG trusses, ZOG roof and ceiling battens, steel roofs, steel fascia and spouting, plus fire retardant roofing paper, means your home is highly fire resistant or totally fire proof.

ZOG® STEEL FRAMING THAT STANDS THE TEST OF TIME

With our very own New Zealand made ZOG steel framing, the structure of your home will be as strong as anything. Controlled testing has shown that a steel-framed house with brick cladding can withstand major seismic activity and because steel can't rot or grow mould, it is healthier for your family too.

LIGHTER, MORE DURABLE ROOFING

To keep the elements outside where they belong, Golden Homes® use metal tile or long run roofs. They're lightweight, easy to maintain with long-lasting colour and ideally suited to New Zealand weather conditions, so you can take comfort in knowing the roof will do its job for many years to come.

A DURABLE PROTECTIVE SHIELD

With HomeRAB thermal barrier sheets, your steel framing is well protected from any temperature fluctuations and you gain R0.3 in total wall insulation.

ENERGY EFFICIENT

The LED lights you'll find throughout your home use up to 80 percent less energy than regular bulbs and last up to 20 times longer combined with the insulation you have invested in, means you'll love the reduced power bills.

LONG-LASTING COLOUR, INSIDE AND OUT

Your interior walls are painted with Resene Spacecote, an exceptionally durable, abrasion-resistant and easily cleaned finish. Outside we use Resene Sonyx, which is designed to reflect the heat and last longer, even in New Zealand's harsh UV conditions.
